

AIR ANALYSIS, LLC POLICY FOR CORONAVIRUS (COVID-19)

Dear Valued Clients,

It is the intention of Air Analysis, LLC to comply with all Federal, State and Municipal regulations currently mandated in response to the Coronavirus Pandemic. On Monday, March 23, 2020, Air Analysis, LLC received confirmation from the State of Pennsylvania, that our business is within a “life-sustaining business sector that contributes to the health and safety of Pennsylvania”, and requires no exemption or waiver to continue operations.

Our commitment to the safety and well-being of employees and Client’s is paramount, and we will continue to monitor and follow the recommended guidelines for maintaining safe work practices that are presently in place or amended in the future. Although our business operations will continue, our office will be staffed on the most limited basis possible needed to deliver the services required and expected by our Client’s.

Air Analysis, LLC does not expect any disruption in providing test reports or deliverables to our Client’s. Our current laboratory services remain available for providing sample analysis. Field work is expected to continue, while following all social distancing and other mitigation measures established by the Department of Health and Centers for Disease Control. Furthermore, our test team will follow any and all specific policies established by our Client’s at their facility’s for limiting the spread of COVID-19.

Air Analysis, LLC will continue to monitor the evolving situation and follow all recommended or required safety measures in dealing with the Coronavirus. It is our intention to provide our services and support to all clientele, and ask that you contact us with any questions or concerns you may have regarding currently scheduled projects or future compliance deadlines. Although flexibility may be needed in doing so, we are committed to meeting everyone’s needs.

Be safe and stay healthy!
